

Gloves, Work, Coated-Palm, Insulated

1. Scope

This standard covers the requirements for insulated, coated-palm work gloves.

Water-resistant, insulated, coated-palm work gloves are outside the scope of this standard. See SCL 4010.11.

This standard applies to the following Seattle City Light (SCL) stock numbers:

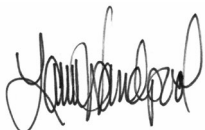

Stock No.	Size
014971	7/S
014972	8/M
014973	9/L
014974	10/XL

2. Application

Insulated, coated-palm gloves provide protection from freezing temperatures, as well as excellent grip and abrasion resistance.

Coated palm gloves are not appropriate for use as protectors over insulating rubber gloves or for protection against shock or hazardous voltage.

Standard Coordinator
Laura Vanderpool

Standards Engineering Supervisor
John Shipek

Division Director
Andrew Strong

3. Industry Standards

Insulated, coated-palm work gloves shall meet the applicable requirements of the following industry standards:

European Standard EN 388; Protective Gloves Against Mechanical Risks

European Standard EN 511; Protective Gloves Against Cold

4. Requirements

Insulated, coated-palm work gloves shall have the following attributes:

- **Color:** white shell with gray coating
- **Palm and fingertip coating material:** natural rubber latex
- **Coating texture:** rough
- **Thickness:** 10 gauge (glove gauge)
- **Thermal insulation liner material:** acrylic/cotton/polyester
- **Knit material:** acrylic
- **Conformite Europeene (CE) protection rating for work gloves:** Category 2

5. Packaging

Gloves are packaged 10 pairs per bag.

Each standard package shall be legibly marked with the following information:

- Manufacturer identification
- Product description
- SCL stock number
- Quantity contained

Each shipping container shall be legibly marked with the following information:

- Manufacturer identification
- SCL purchase order number

6. Issuance

Stock Unit: PR

7. Approved Manufacturers

Stock No.	Size	SHOWA Catalog No.
014971	7/S	451S-07
014972	8/M	451M-08
014973	9/L	451L-09
014974	10/XL	451XL-10
