

## Spill Kits, Oil-Only

---

### 1. Scope

This standard covers the requirements for oil-only spill kits.  
This standard applies to Seattle City Light (SCL) Stock No. 756100.  
Vehicle spill kits are specified in SCL 7610.15.

---

### 2. Application

Kits are designed for spill events involving oil-based substances.  
Contact Material Control for information on return or replenishment of kits.  
Spill kits should be inspected every six months to validate contents and expiration dates.

---

### 3. Requirements

#### 3.1 Kit Container

Kit container shall be a yellow, 55-gallon, polyethylene drum with a plastic, lever-lock lid.  
Kit label shall be fabricated according to Table 3.1 and Figure 3.1.
