

Tapes, Barricade

1. Scope

This standard covers the requirements for barricade tapes.

This standard applies to the Seattle City Light (SCL) stock numbers cited below.

Stock No.	Description
761150	Tape, barricade, "Danger Asbestos Hazard", white
761152	Tape, barricade, "Danger Hazardous Area", red
761154	Tape, barricade, black diagonal stripes on yellow background
014699	Tape, barricade, "Danger", reflective day and night, red
014700	Tape, barricade, "Caution", reflective day and night, yellow

2. Application

Barricade tapes are used to create visible barriers and cordon off areas that are deemed unsafe. Yellow barricade tape is for marking clearance areas.

Day and night reflective barrier tapes are intended to provide enhanced visibility at all times of the day.

3. Requirements

Product requirements shall be as described below and as defined in Section 6.

Barricade tapes shall:

- Be made of 3 mil (nominal) polyethylene
- Be 3 inches wide
- Have a continuous repeat of message or warning
- Have black printing
- Have a continuous repeat of message or design

Day and night reflective barricade tape shall have alternating black and reflective silver warning text on the tape surface.

4. Packaging

Product shall be packaged to prevent damage during shipping, handling, and storage.

Individual packages shall be legibly marked with:

- Manufacturer name
- Manufacturer catalog number
- Product description
- SCL stock number

Shipping containers shall be legibly marked with:

- Manufacturer name
- SCL purchase order number

5. Issuance

Stock Unit: RL

6. Approved Manufacturer
