

## First Aid Supplies, Trauma

---

### 1. Scope

This standard covers the requirements for first aid supplies related to trauma.

This standard applies to the Seattle City Light (SCL) stock numbers cited in Section 6.

General-use first aid kits and replenishment supplies are specified in SCL 4018.15. Supplemental first aid supplies are specified in SCL 4018.17.

Duffel bags or backpacks used to contain trauma first aid supplies are outside the scope of this standard.

---

### 2. Application

Trauma first aid supplies are intended for use by field crews in remote locations for response to serious injuries where paramedic response is not near at hand. These supplies are not intended to replace the services of paramedics.

Users should determine which items, and how many of each, they need to form their kit. All supplies are for single use only.

#### 4. Packaging

Items shall be packaged to prevent damage during shipping, handling, and storage.

Each item shall be legibly marked with the following information:

- Distributor or manufacturer name
- Description
- Part number
- Lot number or date of manufacture
- Expiration date (if applicable)
- SCL stock number

Each shipping container shall be legibly marked with the following information:

- SCL purchase order number

#### 5. Issuance

Stock unit: EA

#### 6. Approved Manufacturers

Stock No.	North American Rescue Part No.	Description	
014953	30-0112	Burntec Wound Dressing For use in the following situations: <ul style="list-style-type: none"> <li>▪ First, second, and third-degree burns (thermal, chemical, electric)</li> <li>▪ Sunburn</li> <li>▪ Abrasions and skin irritations</li> <li>▪ Bruises and swelling (insect bites)</li> <li>▪ Other skin injuries</li> </ul> Weight: 13.2 oz Dimensions: <ul style="list-style-type: none"> <li>▪ Packaged: 9.5 in (L) x 18 in (W) x 0.02 in (D)</li> <li>▪ Open length: 8 in x 16 in.</li> </ul>
