
Waste and Recycle Can Liners and Bags

1. Scope

This standard covers the requirements for waste and recycle can liners and miscellaneous other bags.

This standard applies to the Seattle City Light (SCL) stock numbers cited in Section 7.

2. Application

The products specified in this standard are for lining cans used to collect waste and recyclables and other miscellaneous uses. Opaque bags are typically used to contain trash. Clear bags are typically used to contain recyclables.

3. Industry Standards

ASTM D1709-09; Standard Test Methods for Impact Resistance of Plastic Film by the Free-Falling Dart Method

ASTM D1922-09; Standard Test Methods for Propagation Tear Resistance of Plastic Film and Thin Sheeting by Pendulum Method

4. Requirements

Product requirements shall be per this section and as defined in Section 7.

Products shall be safe for landfill or incineration.
