

GLOVES, GENERAL PURPOSE, LEATHER

1. Scope

This material standard covers the requirements for general purpose leather gloves.

Leather protector gloves that are worn over insulating rubber gloves are outside the scope of this standard.

This material standard applies to the following Seattle City Light (SCL) stock numbers:

Stock No.	Size	Style
013189	small	cowhide
013190	medium	cowhide
013191	large	cowhide
013192	extra-large	cowhide
013193	7	goatskin
013194	8	goatskin
013195	9	goatskin
013196	10	goatskin
013197	11	goatskin
013198	12	goatskin
013199	13	goatskin

2. Application

General purpose gloves are worn to protect hands against cuts, abrasions, and punctures.

Cowhide gloves are durable and warmer than goatskin but are prone to stiffness after being wet. Cowhide gloves are not washable.

Goatskin gloves are durable, supple, and waterproof, but do not retain heat as well as cowhide. Goatskin gloves are washable. Because goatskin gloves do not stretch, they must fit on the first try.

General purpose gloves are *not* appropriate for use as protectors over insulating rubber gloves or for any sort of protection against hazardous voltage.

3. Requirements

3.1 Cowhide

Cream color, LM weight (3.5 oz to 3.75 oz), side grain, economy grade cowhide palm; yellow canvas back. Full fit, gunn pattern with leather finger tips and knuckle strap, red elastic band at back of wrist. Straight thumb. Two-inch stiff canvas safety cuff with "RAWHIDE" emblazoned in red letters; leather heel pull.

3.2 Goatskin

Cream color, goatskin, non-insulated, seamless palm, fully welted wing thumb, brown colored leather band top.
